

MAX-LITE®

Low Pressure Foam Earplugs

MAX-LITE offers long term user comfort not found in other preshaped foam earplugs. The non-irritating, non-allergenic, self-adjusting foam recovers to fit any ear canal. MAX-LITE is ideal for that portion of the population with smaller ear canals.

Part No. LPF1

LPF1	Low pressure earplugs; uncorded	NRR 30	Dispenser of 200 pair
LPF30	Low pressure earplugs; corded	NRR 30	Dispenser of 100 pair

MAX®

Pre-Shaped Foam Earplugs

The MAX earplug features a smooth skin for maximum user comfort. Tapered and preshaped, MAX is designed to follow the contour of the ear canal, provide for easy insertion and a comfortable, natural seal. The flared end promotes optimum insertion, depth and easy grasp for removal. HIGH ATTENUATION: The graduated sizing of the cellular cavities effectively fractures the sound waves and reduces the sound intensity. This unique foaming material combined with its unique shape allows MAX to achieve an NRR 33 rating—the highest rated earplug available.

Part No. MAX1

MAX1	Max pre-shaped foam earplugs; uncorded	NRR 33	Dispenser of 200 pair
MAX30	One size fits all. Corded	NRR 33	Dispenser of 100 pair

QUIET Muff

Three position, ultra-lightweight earmuff. Weighing only 6 oz., the QUIET Muff is supplied with an adjustable crown strap for a secure fit when worn behind the head or under the chin. Replaceable ear cushions.

Part No. QM24PLUS

QM24PLUS	QUIET Muff dielectric earmuff	NRR 24	Ea
QHK4	Replacement ear cushions for QM24PLUS		Pr

THUNDER 29™

Fully dielectric with an extra-long, padded headband for a comfortable fit. Replaceable ear cushions.

Part No. QM29

QM29	THUNDER 29 dielectric earmuff	NRR 29	Ea
HK89	Replacement ear cushions for QM29		Pr

AIRSOFT™ & QUIET™ Reusable Earplugs

SUPERIOR COMFORT: The patented AIRSOFT cushion of air gives far greater wearer comfort than solid stemmed imitators. The AIRSOFT special manufacturing process creates a shell of soft naturally attenuating material around a pocket of air that is comfortable enough for extended usage. **HIGH ATTENUATION:** The AIRSOFT pocket of air effectively fractures and refracts the sound waves and reduces the sound intensity. AIRSOFT provides the highest rated reusable hearing protector available with an NRR 27.

Part No. DPAS30R

AIRSOFT™

DPAS1	Airsoft in clear flip top container; uncorded	NRR 27	Dispenser of 100 pair
DPAS30R	Airsoft in clear box; corded	NRR 27	

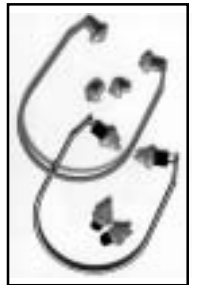

QUIET™

QUIET is a reusable foam earplug that requires no rolling prior to insertion. Insert using the built-in flexible foam stem. Washes with soap and water for weeks, or even months of protection. Attenuation tested in accordance with ANSI S12.6-1984.

QOD1	QUIET-in clear flip top container; uncorded	NRR 26	Dispenser of 100 pair
QD30	QUIET-in clear flip top container; corded	NRR 26	Dispenser of 200 pair

QUIET Bands

Lightweight, comfortable alternative to earplugs or earmuffs. Compact design, with replaceable soft foam pads. Comes with a free pair of replacement pods.

Part No. QB3HYG

Part No. QB2HYG

QB2HYG	Quiet Band hearing protector	NRR 25	Box of 10 pair
QB200HYG	Replacement pads for QB2HYG		Box of 50 pair
QB3HYG	Quiet Band hearing protector	NRR 23	Box of 10 pair
QB300HYG	Replacement pads for QB3HYG		Box of 50 pair

Diamond™ Muff

Over-the-head, behind-the-head or under-the-chin, our new Diamond™ 100 earmuff is a real gem. With an NRR up to 22, it is ideally suited for noise areas where moderate protection is required. And you'll communicate easily with the Diamond 100—its attenuation chart matches the speech spectrum, so communication among workers is clear.

Part No. DM-100

DM-100	Diamond earmuff	NRR 22	Ea
