Part No. 2300C

Mitylite™ Magnum

The new MityLite™ Magnum is the answer for anyone who needs a small powerful light with an exceptionally wide beam.

- Xenon laser spot beam is 600% brighter than most ordinary lights.
- Submersible to 500 feet.
- Made of Xenoy® unbreakable chemical resistant resin.
- Conveniently clips into a shirt or jacket pocket.
- Lifetime guarantee.
- 2-AA cell Energizer® batteries included.
- FM, MSHA, CSA and UL approved non-incendive.

Part No. 2600CS

HeadsUp Lite™

The powerful HeadsUp Lite™ provides hands-free light to the exact area needed. For bare heads, the large, firm, yet soft head pad and elastic cloth strap provides a comfortable fit. A heat-resistant rubber strap is available for helmets and hard hats. Made of a corrosion proof ABS polymer, it includes 4-AA cell Energizer™ batteries, spare Krypton lamp, and is submersible to 500 feet. FM, MSHA, CSA safety approved non-incendive.

Part No. 1900C

Versabrite™: The World's Brightest Swivel Head Pocket Lite

- Six lights-in-one.
- 6,000 candlepower patented Xenon H.P. LMX lamp module.
- Multiple position swivel head.
- Water-resistant, high impact polycarbonate case.
- Includes: Large multiple-use visor cap/clothing clip, BugsAway™ night vision lens, Velcro® mounting system, adjustable hard-hat/headband, removeable mounted magnet, and 2-AA cell Energizer™ alkaline batteries.
- Burn time at 60° is 5-6 hours.
- FM, MSHA and CSA approved non-incendive.

Part No. 2250C

Mitylite™ Pocket Flashlight

Tough, unbreakable and dependable Mitylite™ is officially "FM" approved for dangerous, hazardous environmental use.

- World's most powerful pocket lite-400% brighter than other pen or pocket lights.
- High intensity, Xenon fire lamp module and dioptic reflector provides an exactly focused collimated beam.
- Shock and corrosion proof.
- Watertight to 500'.
- Super compact light source lightweight, 1.5 oz. (40 g) with 2-AAA cell Energizer® batteries included.
- FM, CSA, AUS and CENELEC approved.
